The Urantia Book says:

32:4.1 (362.5) "Do not entertain the idea that, since the Universal Father has delegated so much of himself and his power to others, he is a silent or inactive member of the Deity partnership. Aside from the personality domains and Adjuster bestowal, he is apparently the least active of the Paradise Deities, in that he allows his Deity co-ordinates, his Sons, and numerous created intelligences to perform so much in the carrying out of his eternal purpose. He is the silent member of the creative trio only in that he never does aught which any of his co-ordinate or subordinate associates can do.

Jesus too was a greater delegator. He fashioned a team of Apostles from of different talents, backgrounds and spiritual capacities, allowing them to organise themselves and each to make his own contribution. How are you going about the father's business? We are always looking for people to contribute to as well as participate in the Annual Retreat. This does not necessarily mean a formal presentation". It could be -

- leading the study of a text from the Book;
- getting people consider questions that have arisen from your study (Hara did that last year and it worked really well) or
- sharing your experience of being about the Father 's business or someone else's.

The programme is to start you thinking about your contribution
